

July 21, 2020

Dear King's Academy Parents/Guardians:

I hope that you and your family are safe and healthy. This year has proven to be one of our most challenging times in history. We must adjust and modify the way we think, act and live, as we plan to reopen for a school year that will look unlike any other. Though reopening will be complex, King's Academy is committed to providing our students with a world-class academic program while keeping a laser focus on health and safety -- our top priority. Health, safety, and academics alone won't help our community come back stronger and persist through ongoing challenges. We must work together!

**As a result of the ongoing coronavirus (COVID-19) health crisis, King's Academy will implement remote learning for the start of the 2020-2021 academic year. The first day of school will be September 1, 2020.** All classroom will be using Google Classroom, Google Meet, and Moby Max. Our primary goal is to move forward with meaningful learning as well to maintain the important social and emotional connections with our families. There will be a set daily schedule for each grade to provide structure for students.

Please know that our dedicated staff has been working diligently to consider both the technical side of remote learning as well as the academic, social and emotional issues. We will also concentrate on trauma-informed practices, tech access, and equity. Each scholar will be provided a Chromebook and their student consumable workbooks for instruction. We will schedule a pick-up day in August so that your child may familiarize themselves with the materials. More information will be forthcoming. We will also be sending information in the coming weeks regarding virtual Parent/Student Orientation.

While there are many logistical matters that we will all have to adjust to, my message to you today is, we are in this together. King's Academy is committed to doing what best for our students to the best of our ability and with the highest standards in mind. With your support and partnership, our students can and will be successful during remote learning.

Thank you for your continued support and patience as we navigate through this time of uncertainty. Alone we are strong, but together we are stronger.

Your partner in education,

Principal Spriggs
